

SOCIAL IMPACT PROJECT

Infopack

June 29 - July 5 2021

Zagreb, Croatia

PROJECT SUMMARY

Social entrepreneurship - a type of business organisations that focuses on profit for the local community. We want to enable youth workers to improve their skills in supporting young people in turning their ideas into reality. Youth workers will build their skills in three ways: theoretical aspects of social entrepreneurship, practical aspects of social entrepreneurship and its adequate implementation in youth work. Youth work in social entrepreneurship has immense importance both in popularisation of socially and ecologically responsible ideas and in their practical implementation, especially among young people from vulnerable groups and/young people with geographic, social and economic obstacles. Therefore, youth workers in this TC will get additional training on how to teach and implement socially innovative and responsible ideas into businesses. This is a mobility of youth workers because this way Brodoto can pass on their experience and skills to people who too are or aim to be social entrepreneurs and who work with young future entrepreneurs. Very important goal that we will achieve through this mobility of youth workers is the exchange of ideas and experiences between every partner organisation. This will also be an exchange of ideas and cultural differences. We will aim to give as many opportunities to partners to present themselves, their nations, cultures and practices. Social entrepreneurship, CSR, successful case studies in local communities, community needs, SWOT analysis, marketing strategies, management, pitching, exchange of local examples and experiences etc. are some of the focusses of this mobility of youth workers. Another important emphasis will be put on how to popularise social entrepreneurship start-ups in less developed areas and how to successfully orient young persons towards it through the methodology, Brodoto expertise and exchange of youth workers' experience throughout this project.

PROJECT OBJECTIVES

1) improve the youth workers' knowledge and skills in social entrepreneurship with exchange of best practice examples, business & marketing workshops and case studies.

2) improve the level of participants' skills and competences in youth work activities about social entrepreneurship and business. With participating in this mobility, they will enhance their view on the matter based on trainers' experience and the experience of other partners. They will improve their youth work on what is a social enterprise, which methods of teaching to use and how to implement appropriate workshops.

3) improve the capacities of partnering organisations including the hosting one - both in educational activities for youth and practical ones. This will be achieved by participation on the project through implemented workshops, output creation and exchange of practices. Additionally, through pre-activity research and dissemination activities in respected local communities and abroad.

Pre-activity research by each partner participants:

- 1) to screen their nations' best examples of social entrepreneurship to present them to other organisations;
- 2) to prepare good practice examples of workshops for youth (from their or other organisations' experience), conference, curriculum or similar activity that both helps young people and promotes social entrepreneurship.

COVID-19 MEASURES

(please read carefully)

As the regulations are changing on a daily basis (but are expected to weaken), please follow [this website](#) for the newest updates. At the time of creation of this document, the rules for travelers entering Croatia are as follow:

Travel from countries or regions classified as "green"

Travellers - regardless of their citizenship - arriving from areas classified as "green" can enter Croatia without being subjected to any isolation or test requirement. For these travellers, testing and quarantine are not required also in case of transit through high-risk countries or regions.

Travel from countries or regions NOT classified as "green"

Travellers - regardless of their citizenship - arriving from areas NOT classified as "green" can enter Croatia without being subjected to isolation or test requirement in the following cases:

- **Full vaccination**

A vaccination certificate, proving that the second dose of COVID-19 vaccine (or single dose for Johnson & Johnson) was received more than 14 days before crossing the state border, must be presented;

- **Recovery from COVID-19 in the last 6 months**

A Positive result to a COVID-19 test (PCR or [rapid antigen test](#)) performed in the previous 180 days and older than 11 days from the date of arrival at the border crossing point, or a certificate issued by a physician confirming that the holder has recovered from the SARS-CoV-2 virus infection, must be presented. If a person has recovered from COVID-19 and has a medical certificate or a positive test, and has been vaccinated with at least one dose of vaccine after recovery, the exemption from testing and isolation is extended until **5 months after vaccination**. It is required that travellers show no signs of COVID-19 disease and that they have not been in close contact with an infected person.

All other travellers have to provide a negative COVID-19 test (PCR or [rapid antigen test - RAT](#)).

The RAT test, to be valid, must be [listed in the common list of rapid antigen tests recognised by the Member States of the European Union](#)). If the RAT test was made abroad, the manufacturer and/or the commercial name of the test must be visible, and the test must be issued by a health institution /

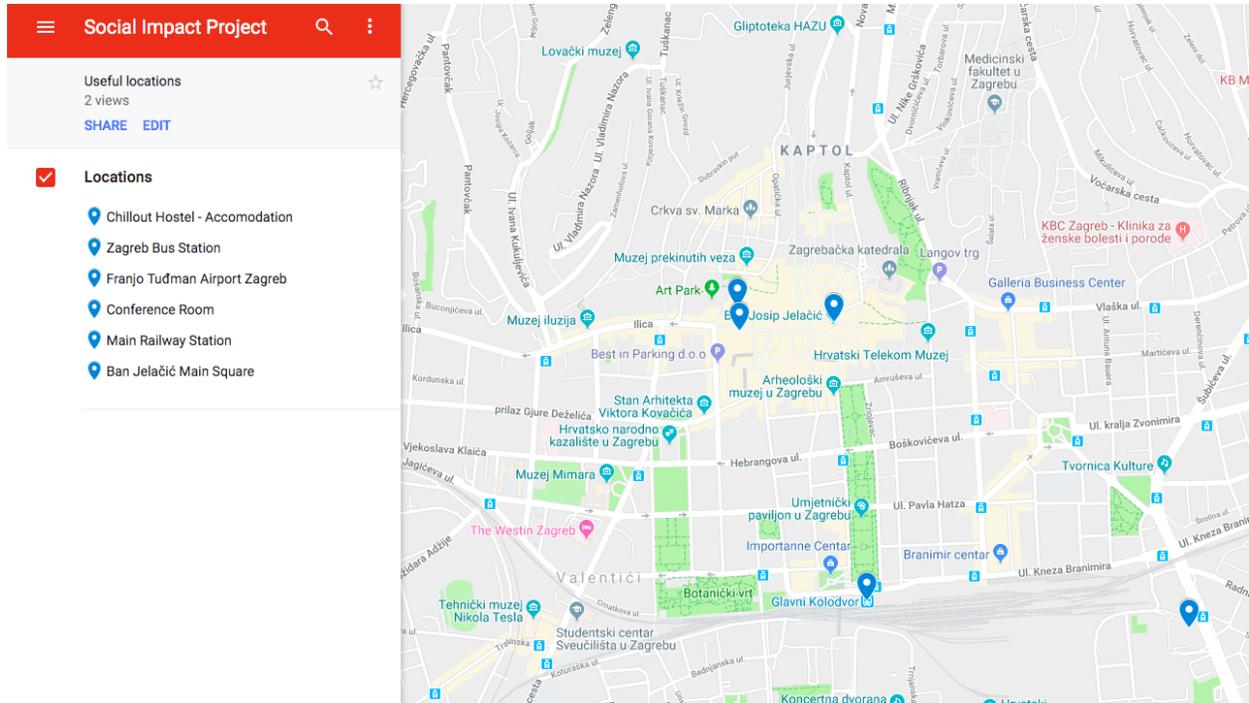

laboratory and signed / confirmed by a doctor. The results of the above tests **must not be older than 48 hours** (counting from the time of taking the swab to arriving at the border crossing point). In lack of a valid COVID-19 test, travellers will have to immediately perform, upon arrival in Croatia, **a PCR or rapid antigen test** at their own expenses, with the **obligation to stay in self-isolation until a negative test result**. If testing cannot be performed, a **10-day quarantine is imposed**.

ACCOMODATION

Accommodation will be arranged at the workshop venue, [Chillout hostel](#) / [Out City](#), Ilica 16 street, Zagreb - both at the same address. The hotel and the conference room are located in the very center of Zagreb ([map](#)), well connected with every mean of transportation. Costs of accommodation, meals and activities during the exchange will be fully covered by the organizers. **There is no participation fee for the project.**

Participants will be hosted in shared rooms (2-4 people per room) and divided by gender and nationality. All the meals will take place in the accommodation facility - [Njummy Restaurant](#). Sheets, blankets and towels will be provided to participants.
